PROFESSIONAL SUMMARY

Versatile Software Developer with hands-on experience in frontend, backend, and full-stack projects, including pet care platforms, event management, and finance tracker applications. Proficient in multiple programming languages. Strong problem-solving, collaboration, and communication skills. Dedicated to delivering high-quality, user-focused solutions.

EDUCATION

Full Stack Web Development (Full-Time)

Masai School, Bengaluru, India

Nov 2024 – Aug 2025

Bachelor of Health Science (Honours) in Organic Chemistry

Bond University, Gold Coast, Australia

Jan 2023 – Dec 2023

Bachelor of Health Science

Bond University, Gold Coast, Australia

Jan 2021 – Dec 2022

SKILLS

Technical Skills: Tailwind CSS, TypeScript, Postman, Responsive Web Design, CSS3, HTML5, RESTful APIs, MongoDB, Express.js, Node.js, Git, Redux, React, JavaScript

Soft Skills: Attention to Detail, Adaptability, Time Management, Teamwork, Problem Solving, Effective Communication

PROJECTS

Care Companion – Pet Care Application Live | GitHub

Tech Stack: JavaScript, React.js, Firebase, Google Maps API, Chart.js, Tailwind CSS

- Developed a comprehensive pet care app to manage dogs' routines, veterinary appointments, and health records.
- Integrated scheduling features for walks, activities, and reminders for vet visits and insurance renewals.
- Implemented Google Maps API to display nearby vet clinics and pet-friendly areas.
- Visualised health trends and activity data using Chart.js for intuitive monitoring.
- Designed a clean, responsive UI with Tailwind CSS for an optimal user experience.

Momento – Event Management Platform Live | GitHub

Tech Stack: React.js, Node.js, Express, MongoDB, Tailwind CSS, Postman, Google Maps API, Nodemailer

- Built an event management system allowing users to create, edit, and delete events.
- Integrated RSVP and invitation features using Nodemailer for automated email notifications.
- Utilised MongoDB for efficient storage and retrieval of event data.
- Implemented Google Maps API for precise event location display.
- Designed responsive interfaces with Tailwind CSS and tested backend APIs using Postman.
